Salt Lake City, Utah 84114-5801

Re: ECDC Clay Mine (M/015/062) Five-Year Surety Estimate

Dear Mrs. White:

At the request of the Division, please find enclosed disturbance and drainage maps for the referenced clay mine. These maps show all items of potential concern as requested in the letter dated October 26, 2005.

The mine is currently active, however no mining activity has taken place since summer of 2000. Currently there is approximately 45,000 CY of clay in a stockpile. The majority of this stockpile will be hauled off site beginning January of 2006.

No reclamation has been completed as of the last surety estimate. If you have any questions of need additional information please call me at 435-888-4418 x 22.

Sincerely,

Darin Olson  
ECDC Environmental Manager
